## Non-Parental Consent and Authorization to Release Medical Information

\*Non-Parental Consent is the process by which a Parent or Legal Guardian grants the legal right to an authorized individual to consent to medical treatment of the child. In the absence of the Parent or Legal Guardian, the authorized individual will have permission to sign for any treatment deemed medically necessary for the health of the child. Authorized individuals will have access to Medical Information and Medical records, including insurance information regarding services rendered. Parents or Legal Guardians have the right to revoke, update or add any authorized individual(s) during their child's care. Examples of Non-Parental Consent would be: Grandparent, Aunt, Uncle, Cousin, Nanny, Babysitter etc.\*

### Child(ren):
